

ECOTECH SUMMER OUTING 2011

JM Ecotech Solutions Co. celebrated the birthday of the Operations Manager, Mr. Bernie S. Chua, under the sweltering heat of the summer sun at the La Carmela de Boracay Resort in Boracay Island, Aklan last May 25-27, 2011. The company flew all the way from Manila to Kalibo, then took the long, winding trip to Caticlan where they boarded a ferry ride to the island. The tropical paradise greeted the company with its lush scenery and clear blue waters separated by the pristine white beaches, everything that Boracay is known worldwide for.

The summer fun began as soon as everybody's feet had touched the soft white sand of Boracay. Water sports highlighted the first day on the island as everybody took turns riding the famed Banana Boat and the Flying Fish. The cool blast of wind and the salt spray added to the mounting excitement while holding tight to the dinghies pulled by roaring speedboats. The second day was a great day for a tour of the island by sea, and the company had all the time to experience snorkeling and walking on the reef amidst the wonderful marine life. The afternoon was spent at the mercy of the strong wind and the giant waves as everybody went far out into the sea on small sleek sailboats, whizzing past the equally fast kite surfers.

In the evenings, the physically-engaging view changed into the party scene, the other well-known facet of the island. The company spent the nights listening to music that ranged from chill-out reggae to pop to heavy techno beats beneath the lights of the colorful lamps and the stars that hung in the night sky. All in all, the three days were something for everybody to remember and to be thankful for a year full of well-earned blessings and togetherness.
